

The Spaces Between

COLLECTION I

SUMMER 2026

ERRE

At ERG, we believe great design begins with people.

The most meaningful spaces aren't defined by a single purpose. They support choice, encourage connection and create room for people to work, learn, recharge and simply be themselves.

That's the thinking behind every collection we create - and the promise behind Carefreely.

By staying authentic in our relationships, connected to our partners and empowering designers to bring their vision to life; we help create spaces that feel approachable, welcoming and easy to settle into.

We design for the
spaces in between.

Because that's
where life happens
and matters the most.

Every
space
tells a
story.
